### Traditionally Challenging Content for Students:

#### Reading:

- Antonyms and synonyms
- Identifying order of events
- Items dealing with cause and effect
- Identifying literary devices & figurative language
- Distinguishing between main idea and minor detail
- Identifying point of view
- Identifying genre of a passage – especially between narrative and expository when the expository text contains some dialogue and events occur in time order

#### Extended Response:

- Most students write a summary/retelling of the passage. A response that is strictly a summary/retelling of the passage cannot receive a score higher than a “2.”
- Important questions scorers ask when evaluating a student response are:
  - *What has the response stated that is not in the passage? How has the student related/tied it back to the passage?*
